WINDOW FASHIONS

Find inspiration with the Comfortex Horizontal Wood Blind Collection

Wood adds warmth and character to a room, and brings home a look of natural beauty.

The richness of wood is at the heart of the Horizontal Wood and Faux Blind Collection by Comfortex.

All three styles meet different needs; yet, each celebrates the timelessness of wood. White or woodtone, basswood or wood composite; every Comfortex Horizontal Blind is an example of precision craftsmanship which ensures the finest light control and privacy.

Newport Woods Basswood Blinds – the highest quality basswood with a proven operating system.

Woodwinds Wood Alloy Blinds — the look and feel of 100% wood with unsurpassed durability.

Aria Advanced Faux Wood Blinds – resilient polymer with the warm look and texture of real wood.

Newport Woods Basswood Blinds

ELEGANT AND ENDURING

Newport Woods Basswood | Weathered | Driftwood

Made from 100% premium basswood, the timeless design of Newport Wood Blinds complement existing wood accents such as flooring, furniture and cabinets.

- A wide range of paints, stains and dramatic finishes ensures there is a color to match or coordinate with your woodwork or furniture.
- Newport Woods Blinds are offered with three slat styles:
 - 1 $\frac{3}{8}$ " – An ideal fit for small windows and French doors
 - 2" – A traditional and versatile slat width
 - 2 $\frac{3}{8}$ " – A larger slat which provides broader, bolder view of the outdoors
- Smooth, rounded edges soften the appearance of the Newport Woods slats.

- Express your personal style with the addition of a decorative cloth tape; they add color and texture and conceal route holes to eliminate light.
- A routeless "no holes" privacy option limits incoming light when the slats are in the closed position.
- A handsome matching valance completes every Newport Woods Blind with choices of design options such as keystones.
- Choose a stylish yet safe cordless or motorized operating system to minimize the risk of cord injuries for children and pets. Cordless or motorized hardware creates visually pleasing, cord-free window treatments which are easy to lift, even at larger sizes.

Woodwinds® Wood Alloy Blinds

NATURE ... IMPROVED

Woodwinds Wood Alloy | S-Curve | Cornetta

Woodwinds Wood Alloy Blinds are an innovative hybrid of hardwood and thermal polymer materials which is guaranteed against chipping, warping, cracking and fading over time.

- Whites, off-whites and woodtones colors make up the Woodwinds color palette with three distinctive slat designs. This includes Flat, S-Curve and Plantation.
- Combines the richness of wood with the strength and stability of modern materials.
- Wood Alloy stands up to damaging moisture, ultraviolet light and seasonal temperature fluctuations.
- Woodwinds Blinds are perfectly at home in steamy bathrooms, hot kitchens or high traffic areas like mud or laundry rooms.

- All Woodwinds Blinds feature an elegant crown valance to conceal the durable head rail system and add architectural interest.
- “Routeless” option eliminates route holes in slats to give your blind a streamlined look, and all the privacy you need.
- For a colorful accent and to conceal the route holes in your Woodwinds Blind, choose a solid or decorative cloth tape.
- For more personalized control over your view, a radio frequency motorized tilt operating option can be added to your Woodwinds Blinds.
- Cleaning is breeze; all Woodwinds Blinds can be wiped clean with a damp sponge.

Aria™ Advanced Faux Wood Blinds

STYLISH & SAVVY

As Beautiful as real wood, with the exceptional performance of engineered materials, Aria Advanced Engineered Wood Blinds are an affordable alternative wood blind option.

- Water resistant, fire retardant, GREENGUARD® Certified, and built to endure the sun, heat and humidity, Aria's durable polymer design are right at home in kitchen, bathrooms and even waterfront homes.
- Get classic wood blind styling in a two slat sizes:
 - 2" – Perfectly proportioned for most windows
 - 2 3/8" – Offers a generous view-through in larger window openings
- The Aria Performance Guarantee ensures your blinds will never crack, chip, warp, fade or bow.

- A distinctive valance, perfectly coordinated to your blinds, is standard on all Aria Advanced Faux Woods Blinds.
- White, woodtones and textured finishes blend easily with classic wood detailing.
- Select from several Aria upgrade options: routeless "no holes" slats to protect your privacy and block incoming light or decorative cloth tapes.
- Optional radio frequency motorized tilt system makes it easy and convenient to control one blind or a group of blinds. The motorization option eliminates lift cords for added safety for children and pets.
